Appendix A

(to Annexure-II of Proceedings of 66<sup>th</sup> meeting of NCST held on 19/12/2014)

( \*) Extracts from Fifth Report of the Commission for the period 2009-10

(i) Local bodies should have a voice in selection and acquisition of land as well as rehabilitation of displaced persons.

(ii) Considering the reduced availability of land appurtenant to urban areas, the assessment of requirement of land have to be more rigorous and participative. Govt. policies should also aim to reduce (rather than enlarge) land requirements for non-agriculture purposes. Compensation to displaced person should also include and element of financial participation in the profit of enterprise by way of sweat equity.

(iii) Migration from the under-developed to developed regions take place due to lack of opportunities/ adequate re-sources for ensuring proper livelihood in the under-developed regions. Action plan has to be initiated, involving public private partnership, for the growth of under-developed region as a whole, and not in terms of mini, micro, or macro level administrative unit within a State. The rights and benefits available to Scheduled Tribes should also not be extinguished by virtue of migration alone; and their discontinuation in the new habitat should be based on a conscious assessment of relative backwardness and isolation.
