TOUR REPORT

In order to commence my official tour I went to Hyderabad from New Delhi by air on 16th December, 2010.

On 17th December, 2010, I attended one programme organized by Scheduled Tribes residing at Hyderabad. Number of S.T. families have been residing at Hyderabad from different parts of Andhra Pradesh belonging to different Tribes like Lambada, Yerukula, Yanadi, Chenchu etc. One N.G.O. who is active in the field of Scheduled Tribes Welfare organized get together of all such S.T. families in order to promote the feeling of brotherhood in inter-tribes community. This was the unique programme organized by this organization as in the past I do not recollect such social experiment to boost social harmony with special reference to S.T.'s in the state of Andhra Pradesh. Number of types of experiences were shared among the people who attended this programme. I am of the positive opinion that such experiment are to be replicated in other parts of the country as well, so as to bring social harmony among the Scheduled Tribes in one particular state. I explained the Constitutional Provisions for the welfare of S.T.s and different schemes implemented by the State and Central Governments for the development of Scheduled Tribes. I also explained in detail the roles and functions of the NCST. Overall this was a very inspiring function.

This report is hereby submitted for your kind perusal and necessary action
